

# QL Oil Absorbents

Keep your boat safe and clean! The QL Oil Absorbents are developed especially to absorb oil, fuel and hydraulic fluid, not water. The absorbents will attract any possible oil spills but will repel water. This means that the QL Oil Absorbents will stay afloat even when soaked with oil.

## QL Oil Absorbent Pad

Sold in a roll of 5 pads the QL Oil Absorbent Pads are very useful and versatile for service and maintenance. Place the pad underneath the engine or in places that are normally difficult to reach during service, like oil and oil filter change, drive maintenance etc. Use it to wipe off the bilge after the work is done. When used dispose the oil pad at an oil collection site. (Contact your local authorities for proper handling and detailed information)

### Perfect use

For regular service and maintenance. The QL Oil Absorbent Pads can be used for all engine and drive-related spills and leaks.

### Features:

- Super absorbent and hydrophobic – Does not absorb water
- Absorbs all types of petroleum spills
- Absorbs up to 0.70L/ 0.18 gallons per pad
- Easy to use.
- 400x500x4.7 mm/ 16"x20"x3/16"
- Sold in a roll of 5 pads
- 100% Polypropylene

## QL Bilge Oil Boom

No more oil in the bilge. The Oil Boom is designed especially to be placed in the bilge of the boat. The Oil Boom is easy to use and gives you a safer and better comfort on board as well as a cleaner environment. Place the QL Bilge Oil Boom in the bilge and secure the boom to avoid interference with equipment and easy recovery. When it's no longer absorbing dispose the bilge oil boom at an oil collection site. (Contact your local authorities for proper handling and detailed information).

### Perfect use

The QL Bilge Boom is ideal for keeping your bilge safe and clean. Simply drop or anchor (with attached rope) in bilge and QL boom efficiently absorbs waste oil in bilge.

### Features:

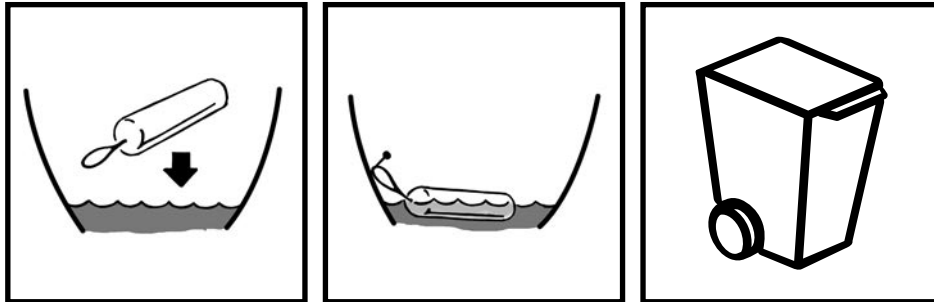

- Super absorbent and hydrophobic – Does not absorb water
- Absorbs all types of petroleum spills
- Absorbs up to 4.5L / 1.2 gallons
- Easy to use.
- 380x130mm/ 15"x5" diameter boom
- 100% Polypropylene absorbent surrounded by spunbond - polypropylene sock and nylon netting.
