Re: Recall Campaign –Volvo Penta TAD650VE and TAD660V fuel delivery pipe 4877-1696

Dear Volvo Penta Owner:

This letter is intended to notify you of an important recall campaign initiated by Volvo Penta involving TAD650VE and TAD660VE engines manufactured during 2008.

Volvo Penta has learned that an incorrect alloy was used by the fuel delivery pipe supplier during a certain period of time making the fuel delivery pipe susceptible to breakage and possible fuel leakage. Leaking fuel is a fire and exposure hazard. We are not aware of any fire or explosions to date as a result of this defect.

[OEM] warranty registration records reveal that you own machinery equipped with Volvo Penta TAD650VE or TAD660V engine(s).

To address these risks, Volvo Penta has started a recall campaign to replace the fuel delivery pipe. Please contact your Volvo Penta dealer as soon as possible to arrange for this important service. This procedure will be completed at no cost and will take approximately 2.3 hours.

If you no longer own this machine, please contact us at _____, with the identification of the new owner, if available.

We apologize for this inconvenience, and appreciate your cooperation.

Yours sincerely,

AB VOLVO PENTA
