

EXTENDED COVERAGE

FOR INDUSTRIAL PRODUCTS

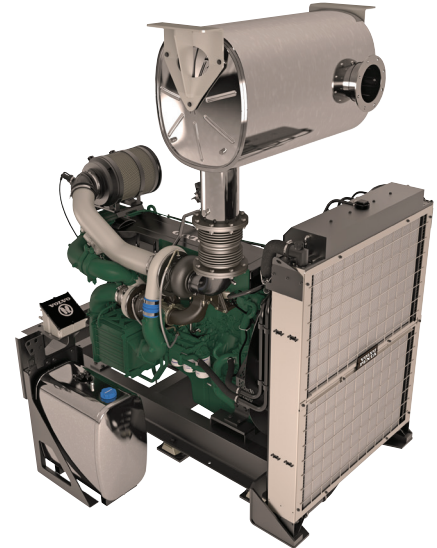

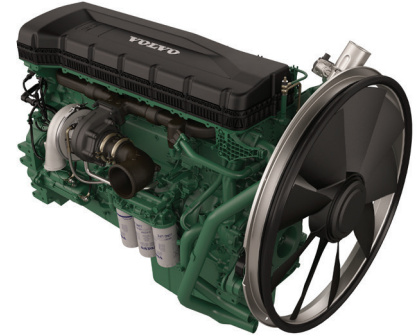

More operating hours with full coverage

As one of the world's leading manufacturers of industrial engines, Volvo Penta offers you a comprehensive package of service solutions – now further enhanced with the new Volvo Penta Industrial Extended Coverage Program - IXC.

The IXC applies when the Volvo Penta international Limited Warranty (or national warranties) has expired, and can be customized based on three parameters: operating hours, number of years and components included.

Operating hours	Years (from delivery)			Engine components to cover
	2	3	5	
0 - 3000		x	x	All
0 - 4000	x			All
0 - 6000	x	x	x	All
0 - 6000	x	x	x	Major*
6001 - 10 000	x	x	x	Major*

Customize the IXC by combining the different options best suited for your engine

Take control of your operational costs

With the IXC packages, customized for each engine's particular needs and working conditions, you can take total control of upcoming operational costs. As the IXC is transferrable, it may also increase the resale value of your application.

Minimize unexpected costs with the Volvo Penta IXC

THE EXTENDED COVERAGE PROGRAM

is available for all off-road and power generation engines.

*Complete list of major components on page 2.

GENERAL

- Available world-wide for all Volvo Penta branded Industrial products.
- To be purchased when the engine is ordered, or latest three months from the date of warranty registration

PREREQUISITES*

- Applies only for products in industrial use
- During the warranty and extended coverage periods, service intervals must be performed according to plan by an authorized Volvo Penta dealer. The warranty and extended coverage period does not apply to defects caused by misuse and lack of service.
- Valid warranty registration in Product Center

LIST OF MAJOR COMPONENTS
